

“Better Late Than Never”

Raffle Prize Winner Announced!!!

On Saturday, September 6th, 2008, a full scale fly-In and air show was held at the Schaumburg Regional Airport, and our club was invited to participate. A few of us decided to go, and we were glad we did.

First off, I would like to thank the members who represented the Palos R/C Flying Club at the Schaumburg Airport (you know who you are). It was a beautiful day and we all had a great time, meeting and talking with some full scale warbird pilots as well as the general public who stopped by to visit us at our Palos R/C Static Display.

We set up 2 canopies on the tarmac and had several airplanes on display. We handed out flyers advertising the Palos Giant Scale Airshow and sold tickets for the trainer plane that was to be raffled off the next day at our r/c show.

On Sunday, September 7th, 2008, our club held the Annual Giant Scale R/C Show at the club field. Once again, thanks go to all our members, both helpers and pilots, as well as to the many pilots from other clubs who took part in this event making it another successful Palos R/C Show.

The winner of the Ready to Fly Trainer that was raffled off at our Giant Scale show was **H. Michael Miley from Roselle, IL**. It turns out that Mike purchased

the winning raffle ticket while visiting our static display at the Schaumburg Airport Show. Mike was contacted by phone and picked up his prize. He was so appreciative of winning the prize, that he joined our Club. Our congratulations and thanks go to Mike.

Now, to the point of this article. A full-scale air show is a great way to reach large groups of people to educate them about model aviation, and at the same time help to promote our Club.

We have been invited to come back for the 2009 Schaumburg Full Scale Fly-In which is tentatively scheduled for Saturday, September 12, 2009. Again, the very next day Sept. 13th will be our Annual Giant Scale Air Show. So, mark your calendars and join us for two days of fun in the sun while promoting our club and our hobby.

Let's make this years Schaumburg static display and the Palos Air Show even bigger and better.

Remember: Take-offs are optional.....Landings are mandatory!!!

Happy Landings,
Dennis DeGregorio
